

OUR STORY

Lower Mountains Air Conditioning (LMAC) has been serving the people of the lower mountains since 1988 and are experts at what we do. From opening originally in Blaxland East, and relocating twice to Emu Plains, the dedicated people at LMAC are proud to work for a family owned business, now in it's third generation. Our owner Andrew is a qualified electrician and experienced refrigeration, air conditioning and electrical technician. Andrew and Anthea are responsible for any on-site sales and quotations, as well as servicing and trouble shooting any technical difficulties. They are supported by a reliable, loyal and qualified team.

THE BENEFITS

- Ads are seen by a broad range of people
- The Western Weekender works with us to update our offers and achieve our sales goals
- The ads create local awareness for our shop
- The Western Weekender offers us additional opportunities to showcase our business
- Elderly people still appreciate reading papers and we benefit from those readers

“ Reliable, loyal and qualified team. ”
